

LETTER OF SUPPORT

March 12, 2019

To Whom It May Concern:

On behalf of the SAG-AFTRA membership, I am pleased to write a letter of support for the American Federation of Musicians (AFM). Working people in the entertainment industry must face the changes in our business together. For generations, we have fought for quality jobs and won. Now, as the industry moves toward new media, we believe it is time to stand together again. Our members recognize the tremendous value that musicians bring to our films and television shows, and we support their demand for a fair contract for streaming.

In solidarity,
